

T2258

- “New” crimping tool for Cu-terminals 4 - 16 mm², with improved ergonomics and less handle forces

T2258

- new mechanism and new handles, as well as all the benefits from the old tool!

Certified crimping tool for non-insulated terminals 4-16mm². The handle length allows that the final phase of the crimp-cycle can be done with both hands, which result in increased comfort and efficiency.

Characteristics:

- Certified tool for Cu-terminals (KRF/KRD/CUT)
- Long handles allowing two handed operation for powerful, low effort crimping
- Scissor movement for optimal access in narrow spaces
- Ratchet release which is not released until the crimping is completed
- Emergency release if the crimping sequence must be interrupted
- Precision eccentric adjustment for consistent performance and ability to calibrate
- Each tool has a unique serial number for traceability

Technical data T2258

Length	304 mm
Width	30 mm
Height	70 mm
Weight	660 g
Cable size	4-16 mm ²
Crimp dimensions mm/mm ²	4 - 6 mm ² /10 mm ² /16 mm ²
Life span, cycles	25.000
