

FBS1723

1. Set screw
2. Blade
3. Feed knob
4. Cutter screw
5. Handle

- tool for stripping of PEX insulation on intermediate voltage cables

- The tool is easy to use - the tool rotates with the handle.
- Stripping possible from \varnothing 15 to 52 mm, which corresponds to cables for 12 kV 50-1000 mm², 24 kV 25-1000 mm², 36 kV up to 630 mm² and 52 kV up to 500 mm².
- The depth for the blade can be set from 0 to 15 mm
- Unlimited stripping length.
- Blade available as spare part.
- FBS1723 contains stripping tool, 100g of silicon paste, and instructions.
- Weight approx. 1 kg.
- Dimensions 275 x 220 x 65 mm.

Adjustable feed in 5 positions. Simple setting of cutting depth with set screw. Hardened blade min. HRC 55, and specially ground. Very easy to replace with screw driver.

Designation

- FBS1723
stripper complete
- FBS1723RS
spare blade
- FBS1714SP
silicon paste, 100 g
